

PYRAMID

Tray painting

You will need:

- A tray
- Paper (you could use newspaper if you don't have any plain paper)
- Paint
- Ball, orange, apple or marbles – something that will roll!

- 1 Place the paper on the paper and put some blobs of paint around the paper. The paint needs to be quite runny. If your paint is thick, mix in a little bit of water first.

2 Now comes the fun part!

Pick up the tray and start to roll the ball around through the paint.

If there are two people, you can take one end of the tray each and roll the ball around without letting it fall off.

3 You can use your dried paintings to make collages or greeting cards.
